

2014 Frost & Sullivan Singapore Excellence Awards Celebrates Singapore's Leading Companies

~Keppel Logistics, Sembcorp and Avaya among companies honoured ~

Singapore, 16 October 2014 – Singapore's top companies were recognized for their achievements at the 2014 Frost & Sullivan Singapore Excellence Awards.

In its second year, the awards aim to commend companies which have demonstrated best practices and outstanding performance across their various industries in the Singapore market. These industries include aerospace & defense, chemicals, energy, environment & building, healthcare, information & communication technologies and logistics.

Mr. Manoj Menon, Senior Partner & Asia Pacific Managing Director, Frost & Sullivan said "The annual Frost & Sullivan Singapore Excellence Awards allow us to identify and recognize the companies whom have excelled in driving innovation and best practices in the competitive business arena."

"We hope that these awards will continue to spur these industries forward by showcasing leading companies and individuals who have become and remain role models for the industry," he added.

Award recipients for the 2014 Frost & Sullivan Singapore Excellence Awards were identified based on in-depth interviews, analysis, and extensive secondary research conducted by Frost & Sullivan's analysts. Companies are typically researched on their revenues, market share, capabilities, and overall contribution to the industry.

The findings of the detailed evaluation will then be presented to a panel of judges to decide the recipient for each category. Information on the award methodology can be found at http://www.frost-apac.com/singaporeawards/selection_process_criteria.htm.
